

Mateo Herrera

Junior Backend Developer · Python

mateo.herrera95@gmail.com · +54 9 351 612-4499 · Rosario, Argentina

PROFILE SUMMARY

Recently graduated full-stack bootcamp developer with 1.5 years of experience contributing to real projects as a freelancer and intern. Strong foundations in Python and FastAPI acquired through intensive study and personal projects. Eager to join a team where I can grow toward a mid-level role within 12–18 months.

WORK EXPERIENCE

Backend Developer (Part-time / Freelance)

[Agencia Web Creativa](#)

Sep 2023 – Present · Remote

- Built a FastAPI + SQLite REST API for a small e-commerce client (product catalog, cart, orders).
- Deployed the app on a VPS using Docker and Nginx; maintained 99.5% uptime over 6 months.
- Wrote API documentation with Swagger UI, adopted by the client's mobile team.

Intern — Backend

[StartupRosario Incubadora](#)

Mar 2023 – Aug 2023 · Rosario, Argentina

- Assisted senior developers in bug fixes and feature additions to a Django monolith.
- Wrote unit tests for 2 modules, fixing 4 latent bugs in the process.

EDUCATION

Full-Stack Web Development Bootcamp

[SoyHenry](#)

Oct 2022 – Mar 2023

Completed 800-hour intensive program. Final project: collaborative task manager with FastAPI + React.

Incomplete B.Sc. Information Systems (2 years completed)

[Universidad Nacional de Rosario](#)

2020 – 2022
