

Lucas Méndez

Semi-Senior Frontend Developer · React

lucasmendez.dev@gmail.com · +598 99 341-7720 · Montevideo, Uruguay

PROFILE SUMMARY

Frontend developer with 3 years of experience building React applications for startups and SMEs. Solid understanding of component architecture, REST API integration, and responsive design. Expanding TypeScript skills and looking to work in a product-focused team with a strong engineering culture.

WORK EXPERIENCE

Frontend Developer

Urutech Solutions

Jan 2022 – Present · Montevideo (remote)

- Built and maintained React dashboards for 3 B2B SaaS products in the logistics sector.
- Integrated REST APIs and handled async state management using React Query.
- Migrated class components to hooks across a legacy codebase, improving readability.
- Introduced basic TypeScript adoption in 2 new modules.

Junior Frontend Developer

Agencia Pixel

Jun 2021 – Dec 2021 · Montevideo, Uruguay

- Developed responsive landing pages and interactive UI components in React.
- Collaborated with designers to implement pixel-perfect mockups from Figma.
